

ZINC INDUSTRY BOOMS IN CLARK

DEVELOPMENTS AT THE MINES
SHOW A STEADY GAIN
IN BUSINESS

The first six months of 1916 have witnessed a steady growth of production from the Yellow Pine mining district, until at present approximately 6000 tons per month are going forward to eastern smelters. As in the past, the greater proportion of this tonnage consists of highgrade zinc carbonate ore, but there is also being shipped a considerable tonnage of lead and copper ore.

The Yellow Pine Mining company continues to be the leading producer of the district, and is shipping each month approximately 1500 tons of zinc concentrate, 200 tons of lead concentrate, and 300 tons of crude zinc ore. Its hundred ton concentrator and narrow gauge railroad have been operating at full capacity throughout the year, and the company has made an enviable record in profits, having paid dividends since January 1, 1916, totaling \$500,000, in addition to building up a cash reserve of over \$150,000.

Second only to Yellow Pine, the Potosi mine, owned by the Empire Zinc company, has maintained a steady production of approximately 1000 tons of zinc carbonate per month, this tonnage having been

hailed from the mine to Arden by motor trucks. Most of this tonnage is first calcined at a plant near the mine, thus increasing the grade of the ore and decreasing freight.

The Green Monster mine, owned by the Hearst estate, and under the management of Carr Neal, has been producing approximately 300 tons per month of zinc ore. A new road has been constructed over Wilson Pass, which will result in decreasing the length of haul some five miles, and the property at present is being equipped with new hoist and compressor. It is probable that the force at this mine will be increased in the near future with consequent increase in production. Other properties in this vicinity which are making a steady production of zinc carbonate ore are the Azalia, Mobile, and Bill Nye.

It is authoritatively stated that the Salt Lake syndicate which recently relinquished its option on the Whale mine, has made a new deal with the owners of this promising property, and will resume operations immediately. The Root Zinc Mining company has recently been organized to take over the Bonanza property, which has made an exceptional record of shipments of highgrade zinc carbonates in the past year, and the property is now being equipped for extensive work. The Sultan mine, owned by Henry Robbins, and one of the most important discoveries of last year, has proved to be a steady and consistent shipper, and is now thoroughly equipped for extensive work.

The Ross Gold Mining company has been engaged in testing a process for the treatment of its complex gold-platinum ores with such success that a small plant will be erected in the near future. Development in the mine has resulted in opening up extensive orebodies, and it has been proved that platinum occurs in all of the ore exposed. Approximately 150 tons per month of copper-platinum ore is now being shipped to smelters on the Atlantic seaboard, this ore netting the company approximately \$4000 per car in spite of excessive freight rates. The Oro Amigo, in which platinum has also been identified, is undergoing a campaign of development with results very gratifying to the owners. Some copper ore is also being shipped by the

ENGLAND SUFFERS FROM LOSS OF FRUIT CROPS

WEALTHY WOMEN OFFER TO
HELP MARKET GOODS AND
ARE MISTREATED

(By Associated Press.)

LONDON, August 4.—Thousands of tons of fruit are spoiling on English farms for want of labor to pick it. Complaint is made that hundreds of intelligent and well educated women have gone to these farms to pick the fruit, only to return because of the miserable conditions under which they were asked to live and the pettiness with which they were treated.

Copper Peak and Ninety-nine mines on the east slope of Potosi mountain.

ASSESSMENT NOTICE NO 6

CASH BOY CONSOLIDATED MINING COMPANY

Location of principal place of business, Carson City, Nevada. Location of mine and works, Tonopah, Nye County, Nevada.

Notice is hereby given that at a meeting of the Board of Directors, held on the 15th day of July, 1916, an assessment of one cent per share was levied upon the capital stock of the corporation, payable immediately, in United States gold coin, to the Secretary, at the branch office of the company, Tonopah, Nevada.

Any stock upon which this assessment shall remain unpaid on the 1st day of September, 1916, will be delinquent and advertised for sale at public auction, and unless payment is made before, will be sold on Monday, October 16th, 1916, to pay the delinquent assessment, together with the cost of advertising and expenses of sale.

By order of Board of Directors,
E. H. MEAD, Secretary.
Tonopah, Nevada.
